

## DPA UPScale – the versatile UPS system

The DPA UPScale has been designed in two versions:

- [DPA UPScale ST](#) (Standard) including frame, UPS, battery and communication.
- [DPA UPScale RI](#) (Rack-Independent) UPS, battery and communication which can be integrated into any 19" rack

### DPA UPScale features:

- Intelligent, self-contained modules
- Modules of low weight  
(10kW = 18.6kg; 20kW = 21.5kg)
- Total compatibility with any installation
- Excellent input performance
- PF > 0.99
- THDi < 3%
- AC-AC Efficiency 95.5%
- Transformerless
- Online double conversion technology

The DPA architecture delivers a redundant protection without “single point of failure”. With all of the critical
