

MegaLine is much more than a UPS because MegaLine is ...

**On line dual conversion** Sophisticated control logic makes certain that the performance of the MegaLine is at the top of their category.

**Redundant & Expandable** In both power and back up. Boards and batteries can be easily added or removed, reducing the average downtime.

**Modular** Modularity and total resource distribution lead to MegaLine UPS offering superior uptime.

**Programmable** The LCD display makes all diagnostics data and programmable menus accessible without the need for a PC connection.

MegaLine offer to the user the features of the best on line double conversion UPSs and their definitely grant high end performance and functions.

- Effective acoustic and visual signals, even from a considerable distance
- High Frequency and high efficiency with a reduced footprint
- Static bypass
- External maintenance bypass (optional)
- Cold charging
- Real time confirmation of residual autonomy and charge status on the LCD display

- Input power factor > 0.99
- Input current harmonic distortion less than 3%
- Advanced expandability of autonomy
- Static bypass
- Class A/B (immunity/emission)
- Automatic sensing (in/out frequency)
- Plug & play for gen-sets
- Noise level
- Double IBC (intelligent battery charger)
- Long life battery control

Available models:

- MegaLine 1250
- MegaLine 2500
- MegaLine 3750
- MegaLine 3750
- MegaLine 5000
- Megaline 2 cabinets 6250
- Megaline 2 cabinets 7500
- Megaline 2 cabinets 8750
- Megaline 2 cabinets 10000
